Comic Tonic represents an amusing tale of the lives of various fictional characters. It presents their personalities through a number of anecdotes that are interwoven into the general plot. The scenes depicted reflect situations and thoughts many of us experience. The way the book presents events and how characters deal with them make for great comedy. The poetic writing adds to its charisma. Comic Tonic asserts itself in a way that the reader will be drawn into it without realizing that he or she has read quite a number of pages. The characters, the story, and the poetry are that tantalizing and engaging. This book can be compared to a job one loves, which when performed, he or she never notices that it has taken a whole day. One reads this book with both intensity and levity. It captures imagination and demands attention. Once the reader starts the first page, he or she will not be able to put it down until done. This item ships from La Vergne, TN. Paperback.
