Cambridge University Press. Paperback. Book Condition: new. BRAND NEW, The Race: An Introduction, Peter Wade, Taking a comparative approach, this textbook is a concise introduction to race. Illustrated with detailed examples from around the world, it is organised into two parts. Part One explores the historical changes in ideas about race from the ancient world to the present day, in different corners of the globe. Part Two outlines ways in which racial difference and inequality are perceived and enacted in selected regions of the world. Examining how humans have used ideas of physical appearance, heredity and behaviour as criteria for categorising others, the text guides students through provocative questions such as: what is race? Does studying race reinforce racism? Does a colour-blind approach dismantle, or merely mask, racism? How does biology feed into concepts of race? Numerous case studies, photos, figures and tables help students to appreciate the different meanings of race in varied contexts, and end-of-chapter research tasks provide further support for student learning.
